

Welcome to the dynamic Portable Public Address system category. We offer a large selection of both Personal & Pro Audio P.A. system solutions for most venues looking for wired or wireless amplification without the formal use of a furniture Lectern.

For personal P.A. use such as a teacher in classroom, presenter in boardroom or social use, the 10 Watt **#PAW-90X** or 20 Watt **#PAW-95** are lightweight portable wireless solutions including a variety of modern functions, & optional microphones; handheld, tieclip lavalier, or headset. Crystal clear reception operation in your choice of 12 factory preset wireless channels, up to 200 feet away from receiver.

Or choose the Pro Audio Series, for larger venues of up to 10,000 people! Whether it's the 100 Watt Wireless **PRA-7000** or the 50 Watt **Wired PRA-6000**, these units are powerful yet portable. Multiple microphone inputs, auxiliary outputs, built in cassette & CD players, USB ports, DVD port hookup & a remote control are only some of

the many multimedia features & capabilities. Built in easy roll caster wheels with retractable luggage handle, allow for complete portability, or mount on optional Tripod. NEW for 2011 is a built in I-Pod docking station on the PRA-7000 for playing your I-Pod directly thru the P.A. System & recharging.

Last but not least is the unit that transformed the P.A. System market when introduced more than 10 years ago; the **#007HT PA-In-Case**. A Portable P.A. system integrated into an executive briefcase, the 007HT has a shoulder strap for complete portability or can be set up as a table top Lectern. The **Series #200 amplifier** knocks out 20 Watts of power & is equipped with both handheld & lavalier wired mic options. Can be used with 8 "C" batteries for complete portability.
