

LISTENING CENTER INSTRUCTIONS
MODEL #LC-1200

- 1] Your junction box cord is equipped with both a ¼" plug and a 1/8" plug. Select the appropriate one for your Cassette/CD player. Connect the plug from the junction box cord to the headphone speaker jack of your Cassette/CD player.

- 2] Insert headphone jack into receptacle on junction box. The junction box can be used with up to six headphones. In addition there are two coupling jacks that may be used to increase headphone usage by connecting to another junction box.

- 3] The junction box has individual volume controls to adjust the volume to your needs.
